When the key is aligned and removed, the pin springs push the top and bottom pins down, locking the cylinder in place.. I thought it would be a good idea to do some digging and uncover some of the mystery surrounding this mysterious brand of locks.. Did you know that the 3rd most common brand of residential locks in America has almost no information about it online? Unlike the other popular brands, it doesn't have a Wikipedia page, reviews are almost non-existent and most surprising is that it doesn't even have an official website! And yet millions of people in America have a Defiant lock installed on their doors.
